Each year, March 8 is observed as International Women's Day to celebrate the social, economic, cultural, and political achievements of women from all around the world.The concept of International Women's Day first emerged in the early 1900s. Women's Day first came into existence in 1909 and it was known as National Women's Day. The day was initially celebrated on 28 February 1909, when 15,000 women marched through New York City demanding shorter hours, better pay, and voting rights.The United Nations (UN) started celebrating International Women's Day in 197 and in 1977, it was officially agreed that the day will be widely observed on March 8 every year The theme for this year's Women's Day, according to the United Nations is "DigitALL: Innovation and technology for gender equality" and it aims to emphasise the importance of technology in bringing gender issues to light. Director General of UNESCO Audrey Azoulay, in her message for this year's International Women's Day, said, "This year, on International Women's Day, I would like to applaud this new generation of young women – for their courage in speaking out, inspiring others and mobilizing their peers, for a more sustainable tomorrow."We must transform education by integrating new teaching methods for highlighting and young womens needs for safety , health and well being. he role of women in the Indian Armed Forces began to take shape. The nurses of the Indian Army served with distinction in World War I. The role of women in the Indian Armed Forces was further expanded with the formation of the Women's Auxiliary Corps, which allowed them to serve in primarily non-

combatant roles like communications, accounting, administration etc.
